DEMOCRATS FAIL TO PLACE MAYOR ON DELEGATION

Action of Twelfth Precinct Primaries Interpreted by Party Leader as a Reproof to City Executive.

Failure of the democrats of the Twelfth precinct to place Mayor Henry Westerfield on that precinct's delegation to the county convention was declared by a democratic leader to be significant. He called it a rebuke to the mayor.

This leader's opinion was that the chiding of Mr. Westerfield was due partly, at least, to his failure to carry out the party's pledge relative to the Sunday closing of saloons so far. The friction between the mayor and several of the aldermen might have had some influence also, he said, pointing to the twenty-one votes received by Dr. R. L. Hunt. The mayor drew seven.

Here are the delegates, elected at the primaries last night, who will represent the Twelfth and Twenty-sixth precincts—the city and the Thirteenth—the Old Albuquerque precinct—in the county convention.

Twelfth—O. N. Marron, Warren Graham, D. K. E. Sellers, Tony Orilla, W. A. Keeler, W. W. Bowers, John Beaven, W. W. McClellan, Isaac Barth, M. P. Sawtelle, R. H. Crews, Dennis Chaves, Edmund Ross, J. T. Delaney, Dr. R. L. Hunt, John Strunquist, L. La Driere, W. C. Hancock, J. E. Goodell, John Summs, R. L. D. McAllister, M. S. Tierney, M. Mandell.

Twenty-sixth—H. G. Coors, Jr.; Dr. S. L. Burton, S. F. Roehl, A. F. Leicher, W. M. Clayton, T. J. Guffy, Pitt Ross, C. E. Hinds, Frank Butt, Dr. W. R. Lovelace, John Tansberg, Dr. E. M. Clayton, H. A. Murphy, William Kieck, Edgar Bass, J. A. Montoya, T. J. Passmore, Sr., J. J. Honnery, Manuel U. Vigil, S. S. Gilbert, Clyde Tinkley, J. Korber, Frank Short, A. Michael, E. L. Gonzales.

Thirteenth—Rafael Garcia, Frank S. Hall, Leonardo Humick, Charles Mann, Ed McGuire, Feliciano Zamora, Florencio Zamora, Louis O'Bannon, Charles Le Feber, Ricardo Zamora, Juan Zamora, Jose Maria Pacheco, McDonald, Refugio Madrid. Each delegate from the Thirteenth is to have one-half vote.

THE EAKIN FAMILY APARTMENT HOUSES WILL BE UP-TO-DATE

The Washington apartment buildings, being constructed for J. D. Eakin at Tenth and Central, under the supervision of J. L. Labriere, architect, are fast materializing. The roof already being laid on the west building.

The Westinghouse electric stoves with which the apartments will be equipped, have already arrived and the other furnishings are en route.

When completed, this will be one of the most up-to-date family apartment houses in the west, being modeled after the California and Washington styles, including the built-in features such as wall beds, china closets, refrigerators with separate lockers for each set of apartments, this latter feature being original with the architect, also an entertainment room for the use of guests.

Arrangements are being made toward beautifying of the grounds by putting in grass, trees and shrubbery, it being the intention of the proprietor to make the Washington an ideal home for his patrons.

PAPPE INCREASING BAKERY BUSINESS

A few days ago C. A. Pappe purchased the Eagle bakery, 222 South Second street, and assumed immediate charge. Yesterday he reported he was more than gratified with the business the bakery has been doing the past week, and that he expects to increase the patronage right along. Mr. Pappe is a thorough, practical baker—there is nothing so big or so small, or so complicated, that he cannot take it, and he will serve the best to his customers. He had charge of the Jaffa bakery department for a number of years.

CHRISTIAN SCIENCE LECTURE THIS AFTERNOON AT H. S. AUDITORIUM

A free lecture on Christian Science will be delivered by George Shaw Cook, of Chicago, in the high school auditorium this afternoon. A short time ago Mr. Cook lectured at Logansport, Ind., where he was introduced by Attorney D. C. Arthur, who said in part:

My attention was first called to Christian Science a number of years ago by the many bitter attacks upon Mrs. Eddy and her work, so prevalent in the pulp and press of that time. Later I noticed in our law reports that it was getting into the courts, and thus some real facts were registered which were dependable and enlightening.

I also read the writings and speeches of such men as the Hon. Clarence A. Baskirk, Judge Clifford P. Smith, Senator John D. Works and others of like caliber, along with the works of Mrs. Eddy herself, and reached the conclusion that Christian Science is a fact in the world's history which cannot be ignored.

I understand also that Christian Science teaches that the truth about God and Christ is knowable, and that the knowledge of this truth constitutes the science of Christianity; that this science of Christ and Christianity is at once understandable and demonstrable, as are other sciences, and that when understood and demonstrated it is immediately practicable in our ordinary affairs. If the claims of Christian Science are true, or anything like the truth, it is my conviction that its discovery is the most important world-event since the crucifixion—Logansport, Pharoas-Reporter.

George Shaw Cook, C. S. B., is a member of the Board of Lectureship of The Mother Church, The First Church of Christ Scientist, in Boston, Massachusetts. The public is cordially invited to attend his lecture in the High School Auditorium this afternoon at 2 o'clock.

THE STORY OF 'A MODERN THELMA' NOW AT PASTIME

Sir Philip Bruce Errington, a wealthy English baronet, visits Norway, where he falls in love with Thelma, daughter of Olaf Gaidmar. His suit is favorably received by Thelma and her father, Charles Dycoworthy, an unscrupulous merchant, has long loved Thelma, and when he hears of her betrothal to the Englishman his fury knows no bounds. Awaiting a day when father and lover are away on a sight-seeing trip, Dycoworthy decoys Thelma to his home and threatens her with violence if she does not promise to marry him. His housekeeper, Ulrika, in gratitude for many kindnesses done her by Thelma and her father, seeks out Sir Philip and warns him of his sweetheart's danger.

The English peer, after a mad dash down the mountain side, arrives at Dycoworthy's house in time to save the honor of Thelma and to deal out to the contemptible merchant well-deserved punishment. Soon after this Thelma and Sir Philip are married and the pair leave for London. Lady Winsleigh, a beautifully and socially powerful member of Philip's set, is secretly in love with the young nobleman. To gain her end she endeavors to compromise Sir Philip in the eyes of his bride, and finally, with the aid of a disreputable actress, she succeeds in her scheme. Thelma, convinced that her husband no longer loves her, suddenly departs for her old home in Norway. Sir Philip, delaying only long enough to secure proofs of the plot against him, follows her and a speedy and happy reconciliation is brought about.

'THE WARDROBE' READY TO DO YOUR CLEANING

SEE THE HOOSIER KITCHEN CABINETS AT KAPPLE'S TOMORROW

At the request of a number of housewives, some of whom reside outside of the city, and who were kept away from attending the Hoosier Kitchen Cabinet sale at the Kapple Furniture company the past two weeks, Mr. Kapple announces in today's Journal that the "last day" has been extended until tomorrow, when demonstrations of these famous kitchen cabinets will be continued as heretofore at the store. Hundreds have called at the Kapple store during the past two weeks and received many pointers on the best cabinet of its kind on the market, and since then many have been delivered to pleased housewives. Just think of it—\$1 on delivery, \$1 weekly, no extra fees, no interest, and money-back guarantee. Don't let this opportunity pass—see the Hoosier at the Kapple store, just half block east of the new Y. M. C. A. building, tomorrow.

OUR INSTRUCTIONS To The Supply House

We Want Nothing But the Best, Regardless of What the Cost May Be

You can not make good ice cream from poor material any more than you can make a cake from poor flour. It is possible to deceive some of the people but Mr. and Mrs. Public are becoming mighty particular about what they eat, drink and wear. The above instructions are, no doubt, broad and we are liable to pay a little more for some supplies than would be absolutely necessary, but we prefer to do this rather than to take a chance on the quality of—
